SEED

2021 DG Cotton Varieties

DYNAGRO

SEED

2021 Dyna-Gro Cottonseed

- **3470**
 - Early Mid, yields better in NC, average seed size, average fiber quality, yields better than 3570
- **3456**
 - Very limited supply for 2021, expect good supply for 2022. Low mic, Early Mid, high yielder
- **3570**
 - True Mid, overall pretty board footprint, good yielder, good fiber quality
- **3535**
 - True Mid, stress tolerance, steady eddie, workhorse. Can be “showy”
- **H959**
 - Salt tolerance, mid full, large seed, early vigor, very stable, good fiber length

Thank You
